Vector Capital Cookie Policy

Effective date 25 September 2026

1 About this policy

This Cookie Policy explains how Vector Capital (Pty) Ltd (Vector Capital, we, us or our) uses cookies and similar technologies on vectorcapital.co.za.

It should be read with our Privacy Notice and Website Terms and Conditions. If a cookie or similar technology processes information that identifies or can reasonably be linked to a person, we treat that information as personal information under the Protection of Personal Information Act 4 of 2013 (POPIA) and any other applicable data protection law.

2 What cookies are

Cookies are small data files stored on a computer, mobile telephone or other device when a website is visited. They can support essential website functions, remember privacy choices, help protect the website and provide information about how visitors use it.

Similar technologies include pixels, tags and local storage. References to cookies in this policy include those technologies where appropriate.

3 Cookie categories

Strictly necessary cookies

Strictly necessary cookies support the operation and security of the website. They may protect against malicious traffic, maintain a session, check browser capabilities and remember cookie choices. These cookies cannot be switched off through the consent tool because the website relies on them to provide its requested functions. A browser may block them, but parts of the website may then stop working correctly.

Analytics cookies

Analytics cookies help us understand visits to the website, including which pages are viewed and how visitors move between pages. We use this information to measure and improve website performance. Analytics cookies are disabled unless the visitor gives consent.

Functional and marketing cookies

The current website scan did not identify functional or marketing cookies. If we introduce them, we will update this policy and the cookie-preference centre before activating them. Non-essential cookies will remain disabled unless the visitor gives any consent required by applicable law.

4 Cookies currently used

The website currently uses the cookies listed below. Durations describe the normal maximum lifetime set by the relevant provider. A browser, the provider or the visitor may remove a cookie sooner.

Cookie	Provider	Purpose	Category	Duration
__cf_bm	Cloudflare	Helps distinguish legitimate traffic from automated or malicious activity and supports bot protection.	Strictly necessary	30 minutes after inactivity
wpEmojiSettingsSupports	WordPress	Checks whether the visitor's browser can display emoji correctly.	Strictly necessary	Session
cookieyes-consent	CookieYes	Records the visitor's consent choices so the website can respect them on later visits.	Strictly necessary	Up to 1 year
_scc_session	GoDaddy	Supports a short-lived hosting or traffic-management session.	Strictly necessary	20 minutes
_tccl_visit	GoDaddy	Groups page views into a visit for website traffic measurement.	Analytics	30 minutes
_tccl_visitor	GoDaddy	Recognises a returning browser for website traffic measurement.	Analytics	Up to 1 year

We review this register after material changes to the website, its hosting or its service providers. The cookie-preference centre also displays the current cookie list.

5 Consent and lawful processing

We ask for consent before placing or accessing non-essential cookies. Visitors may accept all optional cookies, reject them, or select individual categories. Necessary cookies remain active because they are required to operate and secure the website and to remember the visitor's privacy choices.

Consent may be withdrawn or changed at any time. Withdrawal does not affect processing that occurred lawfully before consent was withdrawn.

6 Managing cookie preferences

Visitors can reopen the cookie-preference centre by selecting the cookie icon displayed at the lower-left corner of the website. The preference centre allows visitors to review the cookie list, accept or reject optional categories and save new choices.

Visitors may also use browser settings to block or delete cookies. Blocking all cookies may prevent parts of the website from working correctly.

7 Personal information collected through cookies

Depending on the technology and the visitor's choices, cookie-related information may include:

- an IP address and approximate location derived from it;
- device, operating system and browser information;
- pages viewed, referral source and interactions with website functions;
- session or consent identifiers; and
- dates and times of visits.

We use this information only for the purposes described in this policy and our Privacy Notice. We apply reasonable technical and organisational safeguards to personal information under our control.

8 Service providers and international processing

Vector Capital uses service providers including CookieYes for consent management, GoDaddy for website hosting and traffic measurement, and Cloudflare for website security. These providers may process information outside South Africa.

Where personal information is transferred outside South Africa, we take reasonable steps to ensure that the transfer meets section 72 of POPIA. This may include confirming that the recipient is subject to an adequate law, binding corporate rules or a binding agreement that provides an appropriate level of protection, or relying on another transfer condition permitted by POPIA.

9 Retention

Cookie duration varies according to purpose. Session cookies normally expire when the browser session ends. Persistent cookies remain until their stated expiry date unless the visitor or browser deletes them sooner.

We do not retain personal information collected through cookies for longer than reasonably necessary for the stated purpose or as required by law. CookieYes normally stores a visitor's consent preference for up to one year before asking for a renewed choice.

10 Changes to this policy

We may update this policy when the website, its service providers or applicable legal requirements change. The current version will be published on the website with its effective date. A material change to optional cookie use may require visitors to make a new consent choice.

11 Contact details

Questions about cookies or the processing of personal information may be directed to:

Vector Capital (Pty) Ltd
Company registration number 2024/672135/07
Authorised Financial Services Provider FSP 55141
